

Internship Based Technical Seminar by Softwizz Technologies Pvt. Ltd

Department of Computer Science & Engineering had arranged technical seminar on 19th April 2024. This Seminar was given by Er. Ashok Khera from Softwizz Technologies Pvt. Ltd Bathinda. The Title of Seminar was “Internship based technical seminar.”

This seminar has included the advanced topic and technical framework for students who will go ahead for industrial training and industrial project work. Seminar was very informative for all Engineering branches students.

The seminar highlighted key trends in web design, Python, Android application, PHP, development tools, such as responsive design, user experience (UX) optimization, accessibility, and mobile-first approaches that are more demands in software industry. The importance of incorporating these elements into projects based training program was emphasized to enhance programming based skill for project development program.
